הכינוס בהרשמה מראש   מספר המקומות מוגבל !

אנא אשרו השתתפותכם בדוא"ל או בפקס על גבי טופס זה אל: טלדן מערכות מידע
דוא"ל: conferences@teldan.com   פקס: 03-6117501   עבור יעל מאיה

שם משתתף: _____   מוסד: _____

תפקיד: _____   טלפון: _____   דוא"ל: _____

חניה עומדת לרשות המשתתפים ליד מרכז וואהל

נשמח לראותכם

Thomson Reuters is the world's leading source of intelligent information for businesses and professionals, combining industry expertise with innovative technology to deliver critical information to leading decision makers in the financial, legal, tax and accounting, scientific, healthcare and media markets, powered by the world's most trusted news organization.

ISI Web of Knowledge is the world's most powerful database of scholarly research information. It is the largest Multidisciplinary, Cited Reference Index in the world.

The *ISI Web of Knowledge* is used by Academic researchers, Librarians, Faculty heads and administrators, Corporate and government scientists, researchers and analysts.

Use the *ISI Web of Knowledge* to identify the most appropriate, influential journals in which to publish. You may quickly identify potential collaborators with prolific, significant citation records, and you can track your own citation record to demonstrate your work's impact

With the *ISI Web of Knowledge* you can use publishing and citation patterns as part of faculty, departmental and institutional evaluation. Identify research trends for efficient allocation of research funding within an institution, and compare your institution to peer institutions. Citation analysis assists with the accreditation process for new majors and fields of study, whilst objective, citation-based metrics assist to measure journal influence and impact, easing collection management and budget decisions.

Teldan Information Systems is a leading supplier of business, scientific and technological information, offering a full range of information products and services to Libraries, Information Centers, Universities, Corporate, R&D, Medical Centers, Industry, Government and Defense Organizations.
Established in 1978, Teldan Information Systems represents Quality, Reliability and Stability.

Backed by more than 30 years' experience in working close to the information community, we are tuned to its every need. The expertise gained over the years, combined with innovation and vision, ensure that Teldan Information Systems will be a loyal and long-standing partner in fulfilling all your information needs
